Professional Summary

Seasoned Cloud Architect and Software Developer with 10+ years of teaching experience and expertise in multiple programming languages and frameworks. Skilled in designing, implementing, and managing secure cloud infrastructure with strong understanding of cloud architecture principles, DevOps methodologies, and containerization technologies. Dedicated to code quality, project efficiency, and driving business growth through technological advancement.

Work Experience

Cloud Architect

Aug 2025 - Current

AWS Training With AmaliTech

- Designed cloud architecture solutions for various customer needs
- Implemented best practices for cloud security and compliance standards
- Analyzed existing systems to recommend cloud migration strategies
- Reviewed architectural designs to ensure scalability and performance efficiency
- Managed documentation of cloud infrastructure and deployment processes
- Collaborated with developers and stakeholders to ensure successful deployment of applications on cloud platform

Developer Intern

Aug 2023 - Jul 2025

Ngoane Health Tech Company

- Collaborated with cross-functional teams to ensure seamless integration of new features
- Debugged complex software issues, leading to more stable product releases
- Conducted thorough code reviews to ensure adherence to coding standards and best practices

- Built databases and table structures for web applications
- Worked closely with clients to gather requirements and translate them into technical specifications
- Adapted quickly to new technologies and programming languages, enhancing overall team productivity

Teacher Sep 2013 - Aug 2022

Ghana Education Service (GES)

- Administered assessments to determine each student's specific educational and social needs
- Planned and organized classrooms that consistently facilitated positive learning experiences
- Adapted teaching methods and materials to meet students' varying needs and interests
- Worked collaboratively with other teachers to review data and develop instructional strategies
- Established productive rapport with parents, encouraging parental involvement to boost student achievement

Education

Software Engineering Nov 2023

ALX AFRICA, Ghana (Mastercard Foundation)

Bachelor of Education, Accounting Jul 2017

Valley View University, Ghana

Diploma in Basic Education, Early Childhood Jul 2013

Jasikan College of Education, Ghana

Technical Skills

FRONTEND

HTML/CSS | JavaScript | React | Next.js | React Native | Expo

MOBILE DEVELOPMENT

React Native | Expo | Flutter | Dart | Mobile UI/UX Design | Cross-Platform Development | API Integration | State Management

BACKEND

Python | Node.js | Django | Flask | RESTful APIs | PostgreSQL | Database Programming | Authentication & Authorization

AI & MACHINE LEARNING

Machine Learning | Natural Language Processing | LLMs | RAG | Multi-Agent Systems | Sentiment Analysis | Vector Databases | AI APIs

DEVOPS & CLOUD

AWS | Cloud Architecture | DevOps | Docker | Containerization | CI/CD Pipelines | Cloud Security | Migration Strategies | Serverless Computing | Infrastructure as Code

Certifications

- Certified Software Development Professional
- Certified Cloud Architecture
- Certified Internet Web Professional

AI Projects

AI Sentiment Dashboard

Developed an AI-powered sentiment analysis dashboard with interactive chart visualizations that predicts and classifies text as POSITIVE, NEUTRAL, or NEGATIVE using machine learning algorithms and natural language processing techniques.

Multi-Agent AI Systems

Built collaborative multi-agent systems as part of Ready Tensor Agentic AI Developer Certification Program, implementing advanced agent coordination, communication protocols, and distributed problem-solving capabilities using Python.

Web APIs for AI Agents

Designed and implemented RESTful APIs to enable AI agents to interact with external services and data sources, featuring authentication, rate limiting, and real-time data processing capabilities for seamless

agent integration.

RAG-Based Research Assistant API

Developed a Retrieval-Augmented Generation (RAG) API that combines vector databases with large language models to provide accurate, context-aware research assistance with document retrieval and intelligent query processing.

Projects

Event Center Mobile App

Developed a mobile application using React Native and Expo for discovering and managing events. Implemented user-friendly interfaces, real-time event updates, and interactive features for seamless event browsing and booking experiences.

PromoPost Mobile App

Built a promotional content mobile app using React Native, enabling users to create, manage, and share promotional posts. Integrated backend services, media handling, and dynamic UI components to enhance user engagement and content visibility.

Meditation Mobile App

Built a meditation mobile app with React Native and Expo, featuring a clean UI with FlatLists, Linear Gradients, modals, tab bars, and icons. Implemented file-based routing using Expo Router for seamless navigation and smooth user experiences.

E-Commerce Platform

Developed a full-stack e-commerce application using React and Node.js with integrated payment processing, user authentication, and real-time inventory management.

Cloud Migration Solution

Led the migration of on-premises infrastructure to AWS, implementing auto-scaling, load balancing, and disaster recovery strategies that reduced operational costs by 40%.

Healthcare Management System

Built a comprehensive patient management system using Django and PostgreSQL, featuring appointment scheduling, medical records management, and secure data encryption.

Projects & Accomplishments

- Documented and resolved plans, contributing to Rxkonet.com
- Collaborated with team of 5 in development of Rxkonet.com
- Collaborated with team of 4 in development of REVEEW website for product reviewing
- Initiated a training program for over 150+ students in basic coding

Professional Affiliations

- Ghana National Association of Teachers (GNAT)
- Regulated by National Teaching Council (NTC)
- Young African Leaders Initiative (YALI)
- ALX Room Fellowship
